

Annual Report 2023

National Education Commission Expenditure Head 335

Message from the Chairman

As the Chairman of the National Education Commission, I am very pleased with the performance achieved by the National Education Commission amidst the various difficult contexts that all Sri Lankans had to grapple with due to the economic crisis.

The National Education Commission was able to prepare the National Education Policy Framework (2020-2030) Report including the policy reforms introduced by the National Education Commission as per the requirement of expanding and making changes in the education sector and necessary

measures were taken to present it to the Honorable Minister of Education and the President's Office.

The first National Research Symposium on Education, organized by the National Education Commission with the purview of sharing knowledge generated from the research works conducted covering various aspects of the Sri Lankan education system, with other parties engaged in research work in the field of education and with interested parties, was successfully with the participation of many academics in the field of education.

Further, the report of the bilateral study initiated with the University Grants Commission to study the progressive steps that can be taken to reduce the time spent for university entrance by a student who has got through the G.C.E (Advance Level) Examination and the time spent by an undergraduate to complete university education has been presented to the Honourable Minister. The reforms that need to be carried out with the aim of making the labor resources in the country in line with the current market needs and utilizing their efforts to boost the country's economy have been identified by this study.

I am pleased to mention that despite diverse obstacles, the National Education Commission which is a forerunner in the Sri Lankan education sector has been able to take necessary measures to fulfill its functions for the sake of the country and nation.

Professor Harishchandra Abeygunawardena

Chairman

National Education Commission

Prepared to be submitted to the parliament Circular No. 402.	t in terms of paragraph 2.4.1 of the Public Finance
	024 June

Chapter 01 - Corporate Profile/ Implementation Summary

1.1 Introduction

The National Education Commission was established under the act 19 of 1991 to analyze the educational policies and plans, and to forward suggestions to the president on a comprehensive education policy, assuring the continuity of the education policies and to make the educational system comply with changing needs of the society.

According to the 4th chapter of the Report of the Presidential Commission on Youth, they have accepted the need to establish a "National commission on education policy" with the aim of having a common agreement on education policy. Based on the clause in presidential committee on youth "Such a commission should immediately commence preparing a 10 year plan and implementation of the plan should begin in 1991", with the view of preparing a definite education policy which is not affected by the constant changes in the political arena.

According to Section 2(1) and Section 2(3) of the National Education Commission Act, the National Education Policy, based on the report containing the recommendations submitted by the National Education Commission to the President, should be complied with by all authorities and institutions responsible for all aspects of education and be announced from time to time.

According to clause 4(1) of the National Education Commission Act, The National Education Commission consists of 10 experts in the field of education, administration and management and 5 members holding key positions in the Education sector shall be elected by the President. As per the 05th clause of the act, the National Education Commission has a full time Chairperson and two Vice Chairpersons.

The 08th National Education Commission is currently on operation. (from 2020.02.28)

1.2 The Vision, Mission and the Main Functions of the Organization

Vision

Holistic society of progressive and lifelong learners for a peaceful, cohesive Sri Lankan society attuned to facing local and global challenges

Mission

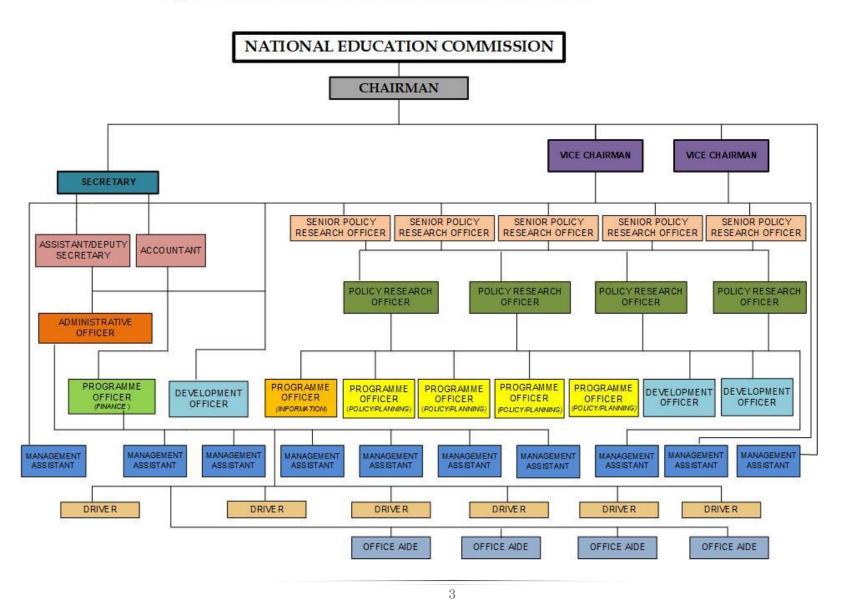

Function as the premier organization in setting national education policy, goals, competency profiles, and standards of educational qualifications with monitoring and certification roles with the view to improve quality, relevance, and standards of education.

1.3 Main Functions

- A) Make recommendation to the President, on educational policy in all its aspects, with a view to, ensuring continuity in educational policy and enabling the educational system to respond to changing needs in society, including an immediate review of educational policy and plans.
- B) Periodic review and analysis of the National Education Policy and plans in operation and the key recommendations to the President on the changes required when necessary.
- C) The President would likely to refer to the National Education Commission, to advice the president on any other matter relating to education.

1.4 Organizational Structure

Organizational Structure of National Education Commission

Members of the Commission

Prof. H. Abeygunawardena Chairman

Mrs. PadminiRanaweera Vice Chairperson (Policy)

Mr. Kingsly Fernando Vice Chairman (Planning)

The Ex-officio members

Prof. Sampath AmarathungaChairman, University Grants
Commission

Eng. B.K.U.A. Wickramasinghe Chairman, Tertiary and Vocational Education Commission

Mr. M.N. Ranasinghe Secretary, Ministry of Education

Mrs. Chandima Punchihewa
Director, Department of
National Planning,
Ministry of Finance

Mr. M.M. Nayeemudeen Additional Secretary, Ministry of Public Administration, Home Affairs, Provincial Councils and Local Government

Other members

Dr. T.A. PiyasiriFormer Vice Chancellor,
University of Vocational
Technology

Dr. Kapila BandaraDean, Faculty of Education,
University of Colombo

Dr. Anuruddha Padeniya Pediatric Neurologist, Lady Ridgeway Children's Hospital

Dr. Indrani ThalagalaFormer Head of Division,
Early Childhood and Primary
Education, Open University

Mr. D.M.A.R.B. DissanayakeSecretary to the Prime Minister,
Prime Minister's Secretariat

Dr. Harsha Alles Chairman, Gateway International School

Mr. Swaminathan Wimal Senior Lecturer Dept. of Linguistics & English University of Jaffna

Chapter 02 - Progress and Outlook

2.1 Special achievements, challenges and future goals

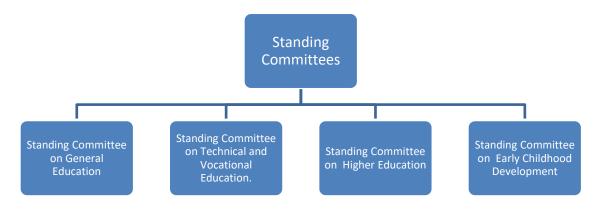

Introduction

The main tasks assigned to the National Education Commission are as follows;

- 1. Evaluation of the education policies of the country through review and analysis of existing programmes.
- 2. Updating educational policy proposals to match the current needs.
- 3. Providing recommendations on education policies to the President based on reviews, analyses, assessments and modernization of existing policies, plans and programmes.

The National Education Commission has established four standing committees under four areas to carry out the above tasks as mentioned below.

- 1. Standing Committee on General Education.
- 2. Standing Committee on Early Childhood Development.
- 3. Standing Committee on Higher Education.
- 4. Standing Committee on Technical and Vocational Education.

Each standing committee consists of 15 to 20 academics representing the relevant fields in the public and private sectors.

The performance of activities planned for the year 2023 can be summarized as follows.

1. Midterm Review Report on Sustainable Development Goals - 4 (2023) Ensure Inclusive and Equitable Quality Education and Promote Lifelong Learning Opportunities for All

Based on the guidance of the Sri Lanka National Commission for UNESCO and the nomination by Honourable Minister Susil Premajayantha, the National Education Commission drafted this mid-term review report in 2023. The report includes an analysis of the current components of education in Sri Lanka under 11 sub-units, in relation to the 4 Sustainable Development Goals.

This work was carried out under the leadership of an expert committee, with the participation of the academic staff of the National Education Commission. Data collection was based on information from the Ministry of Education, the Department of Census and Statistics, the University Grants Commission, the Tertiary and Vocational Education Commission, and the Provincial Education Departments. After preparing the first draft, workshops were held separately for each sub-unit, and the draft was further improved using the feedback received. The revised report was then presented at the National Validation Workshop on 12th July, 2023, and the feedback received from this workshop was incorporated in writing. Honourable Susil Premajayantha, Minister of Education participated as the chief guest in this workshop. Representatives from the UNESCO organization in New Delhi, relevant ministries, institutions, and non-governmental organizations also participated. The final report, developed based on all these facts, was handed over as a printed publication to Prof. Sirimali Fernando, Secretary General of the Sri Lanka National Commission for UNESCO, and the Minister on 22nd August, 2023

2. International Schools in Sri Lanka: Inception, Current Status and Future

One of the recommendations of the policy proposals and recommended strategic activities on international schooling is to develop and implement a quality assurance mechanism for international schooling in Sri Lanka that includes setting standards and a monitoring system. Accordingly, the National Education Commission decided to conduct a rapid evaluation of international schools with a view to assessing the current status of international schools as a prelude to the preparation of this quality assurance mechanism. With the aim of accomplishing that, a study titled "Survey of the Current Status of International Schools in Sri Lanka" was initiated.

This study is conducted to identify the systemic needs to maintain the quality of international school education, which has received increasing attention in the entire community of Sri Lanka. The data required for this study was gathered through discussions with various stakeholders working in the field focusing on international schools established in and around Colombo district.

It is therefore recommended that the most important steps to be taken by the Government are to amend or repeal the Assisted Schools and Training Colleges (Special Provisions) Act No. 5 of 1960 and the Assisted Schools and Training Colleges (Supplementary Provisions) Act No. 8 of 1961 or to introduce new By replacing an Act, the Government will be allowed to regulate and supervise all schools operating in Sri Lanka, regardless of ownership or affiliation.

It is recommended that the Ministry of Education, with the approval of the Cabinet, should establish a separate unit/specified authority (Specific authority for international schooling) with the Private Education Branch until the existing two Acts are amended or repealed and replaced by a new Act.

To regulate and monitor the above-proposed authority with the approval of the cabinet, the education minister should take steps to establish an advisory committee (Advisory Committee for International School Education- ACISE) chaired by the secretary of the Ministry of Education, and members appointed by the minister such as representatives of international Schools, Board of Investment and Chamber of Commerce.

Prescribed by the National Education Act, the National Education Commission, in association with the proposed specified authority for International schools, should design and implement a quality assurance and accreditation system consisting of well-defined quality criteria and elements, good practices and standards, and an assessment system for cover all international schools.

3. Quality and Standards of Care and Education Provided by Early Childhood Development Centers in Sri Lanka: Current Status and Prospects

In the National Policy Framework (2020-2030), one of the recommendations of the policy proposal on early childhood care and education is to establish a quality assurance framework and institutional mechanism to review and certify early childhood development centers, their early childhood care and education programs. In relation to this survey, in the year 2022, through several rounds of discussions, the early childhood development officers were informed about the survey questionnaire, and after collecting the data, 358 early childhood development center institutions selected to cover all the districts of Sri Lanka were given the duly prepared questionnaire, collected data and completed study. thereafter, the brief report of the study was presented as a thesis to the first biennial education research conference of the National Education Commission.

The final report of this study contains many suggestions to streamline early childhood education by introducing a quality assurance and certification system to foster the overall quality and standard of early childhood development centers in Sri Lanka

4. Current status and implementation of STEM/STEAM practices in school education in Sri Lanka

Many countries around the world use STEM/STEAM education approach in preparing students with skills to meet the demands of the 21st century job market. In Sri Lanka some beginnings have been made regarding this educational approach, but it has not yet been fully implemented in the school system. Therefore, the primary objective of this study is to investigate the awareness and implementation of STEM/ STEAM key stakeholders.

Accordingly, questionnaires were given to 1051 schools selected to cover the Western, Central and Eastern provinces used for this research and data collection was done.

Based on that data, discussions were held with the parties including subject directors representing the Western, Central and Eastern provinces. Accordingly, to successfully adopt STEM/STEAM approaches in Sri Lanka's general education system, the final report was prepared focusing on administrative support, consistent policies and directives, appropriate curriculum reform, teacher training and resource allocation, need for strategic policies to empower educators, etc.

5. Current Status of Teachers' Professional Development in Sri Lanka: Policies, Programs and Practices for Teacher Professionalism

A sample of 2,000 teachers representing schools across the islands were asked about their suggestions and recommendations for creating teacher professionalism as a preliminary step to bring about a new renaissance in the field of education of contemporary importance. Based on the collected data, focused discussions were conducted with various parties working in the field of education. Accordingly, to raise the standard of education in Sri Lanka by introducing appropriate policies, raising the quality of teacher professional development programs and developing infrastructure, by creating opportunities for teachers to provide high quality learning experiences, proper attention should be paid to the steps to be taken to increase teacher professionalism. The final report prepared with reference is currently being printed.

6. A Study of University Digitization in Sri Lanka, Towards Sustainable Higher Education

Data collection through 6 questionnaires to inquire to what extent Sri Lankan universities have been digitized for sustainable higher education. Students, teachers, senior managers, administrative officers, library officers, information technology officers participated in the 6 questionnaires and the survey work was completed by the end of September 2022. Thereafter, the brief report of the study was presented as a extended abstract to the National Education Commission's first, biennial, National Research Conference on Education.

The National Education Commission initiated a study on the digitization of universities in Sri Lanka for sustainable higher education as an initial step to create a national discourse on the introduction of digitization into the education sector. Based on the data obtained from the main stakeholders related to the university education system (students, lecturers, senior managers, administrative officers, library officers, information technology officers, etc.), a study was conducted on the level of digitization of public universities in Sri Lanka. This study has focused on the extent to which digitization has contributed to university education, its advantages and disadvantages, and the problems faced. This report contains many proposals that are important to Sri Lanka at a time when digitization is essential for future survival in the current information technology-based world.

7. Matching human resources produced by universities with the job market: Matches, mismatches and the way forward

The objectives of this study are to analyze university student recruitment and graduate output data, to study the relationship between graduate employment trends, graduate employment rates and Quality Assurance Review results, and to study employers' attitudes towards university graduates.

This study was implemented in three phases: Phase I: Secondary Data Analysis; Phase II: Review of Quality Assurance (QA) review reports; and Phase III: study of employers' attitudes towards graduates.

Stage I - G.E.C. (A/L) study of student enrollment trends in academic streams, study of student enrollment and graduation in universities and study of graduate employment trends. The secondary data required for this work was obtained from various government agencies such as Ministry of Education (MoE), University Grants Commission (UGC), Department of Examinations (DoE), Department of Census and Statistics (DCS) and State Universities.

Phase II - Analysis of the relationship between employment rates and quality assurance review outcome. For this, the data obtained from the Quality Assurance Council of the University Grants Commission (QAC/UGC) was used. Based on these data, the relationship between study program review results and the employment rates of graduates of each study program was analyzed.

Phase III - Assessment of Employers' Perceptions of University Graduates. The data required for this was obtained (through a questionnaire) from 561 reputable employers registered with the Ceylon Chamber of Commerce. However, only 50 employers responded to the questionnaire.

As this study shows, several primary reasons for inconsistencies are; Firstly, students at the senior secondary level do not get enough opportunities to study STEM subjects through the general education system, so they are automatically motivated to study the G.E.C. (A.L.) Arts stream. The second basic reason is that, despite the lack of employment opportunities among Arts graduates, Sri Lankan universities offer Higher percentages of G.C.E. Advanced Level students entering university from the arts stream continue to be recruited for humanities arts and social studies. A third root cause is the failure of universities to modernize their curricula, especially in the humanities and social sciences, to produce students with the skills required by modern employers.

Accordingly, the final report completed by incorporating logical and practical policy and strategic activities to solve long-term issues.

8. TVET Diploma and Advanced National Diploma Programs (NVQ 5 and 6): Demand and Supply, Physical and Human Resources, Success Rates and Limits, and the Way Forward

Focusing on the current job market, there has been a great demand for skilled workers. The study was conducted in relation to diploma and higher national diploma programs (NVQ 5 and 6) that create the same skilled workforce.

Data were collected from 884 students from six Colleges of Technology (CoT) and five University Colleges. Based on the data, many key findings and recommendations are made through this study to improve the quality of studies of students enrolled in NVQ 5 and 6 diploma programs, to encourage the full study of related programs and to make an important contribution to the economic development of the country from the allocations allocated for these programs.

Based on this research data, it is suggested that the assessment procedure should be more formalized due to the existing weakness of independent invigilators for competency-based assessment, which leads to student failure.

Also, a recommendation/suggestion was made that the time taken for independent evaluation should be reduced. This will enable the students to get the course certificate in due course.

It has been recommended that the Government should provide suitable financial assistance or scholarship scheme for these NVQ 5/6 courses to reduce dropout of students.

Thus, it was recommended that the shortage of lecturers teaching NVQ 5/6 course can be effectively maintained by formally filling the vacancy.

9. Preparation of report containing data on education

The National Education Commission has successfully completed the task of preparing a statistical database on education from various data related to the education system of Sri Lanka for multiple users and interested parties, scholars, education officers, teachers, students, universities etc.

This publication has been prepared by incorporating data from the year 2015 to 2020 with the help of existing data sources from leading institutions such as Ministry of Education, Department of Census and Statistics, UNESCO.

It consists of two main parts. The first part is an analysis of data on education and the second part is an analytical study of the establishment and placement of teachers in Sri Lanka. This database enables a comprehensive understanding of the education system in Sri Lanka. This dataset has been prepared and is ready for printing.

Public has been made available to download these reports through publication classification in National Education Commission website www.nec.gov.lk

2.2 Existing challenges

According to the Medium-Term Performance Development Plan of the National Education Commission, the following are the institutional and administrative challenges in general education, higher education, technical and vocational education, and facilities for those studies.

- Obtaining a permanent office with proper facilities.
- Making essential recruitments.
- Failure to take necessary steps by the concerned Ministries/Institutions to implement the high-quality policies and reports made by the Commission.

2.3 Future Goals

According to the medium-term performance development plan of the National Education Commission, the challenges and future goals related to general education, higher education, technical and vocational education and administrative and institutional challenges that facilitate for the completion of above tasks are as follows.

- Establishment of National Education Commission at a new location in a sophisticated environment.
- Revising the recruitment procedure as to be recruited a new academic staff who
 are able to effectively implement the new plans of the institution and to retain
 such recruited officers for a long period of time and obtaining approval to pay
 the relevant remuneration allowances.
- Amending the National Education Commission Act with the purview of enforcing the National Education Commission. Thereby, amending the National Education Commission Act by establishing the National Education Commission to set standards for early childhood education, international schooling and nongovernment higher education institutions and to monitor compliance with those standards which is not currently being done by any standards certification and validation body;

3.10 Report of the Auditor General

My No. - EDU/C/NEC/FA/2023

Chairman, National Education Commission

Head 335-Summary Report of the Auditor General in terms of Section 11 (1) of the National Audit Act No. 19 of 2018 on financial statements of National Education Commission for the year ended 31 December 2023

1. Financial Statements

1.1 Opinion

The financial statements of the National Education Commission for the year ended 31 December 2023comprising the Statement of Financial Position as at 31 December 2023 and the Statement of Financial Performance, and Cash Flow Statement for the year then ended, was carried out under my direction in pursuance of provisions in Article 154(1) of the Constitution of the Democratic Socialist Republic of Sri Lanka read in conjunction with provisions of the National Audit Act No. 19 of 2018. This Report contains my comments and observations on the financial statements which are presented to the Commission in terms of Section 11 (1) of the National Audit Act No. 19 of 2018. The Annual Detailed Management Audit Report in terms of Section 11 (2) of the Audit Act will be presented to the Parliament in due course. The report which is to be presented to the Parliament in terms of Section 10 of the National Audit Act No. 19 of 2018 which is read in conjunction with Article 154 (6) of the Constitution of the Democratic Socialist Republic of Sri Lanka will be presented to the Parliament in due course.

In my opinion, the financial statements give a true and fair view of the National Education Commission as at 31 December 2023 and its financial performance and cash flow for the year then ended, in accordance with Generally Accepted Accounting Principles.

1.2 Basis for Opinion

I conducted my audit in accordance with Sri Lanka Auditing Standards (SLAuSs). My responsibilities, under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements Section of my report. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

1.3 Responsibilities of Chief Accounting Officer and the Accounting Officer on Financial Statements

Preparation of financial statements in a manner that reflects a true and reasonable position and determines the internal control required to enable financial statements to be prepared without inadequate false statements that may result from fraud and error in accordance with Generally Accepted Accounting Principles and the provisions of Section 38 of the National Audit Act, No. 19 of 2018 is the responsibility of the Accounting Officer.

As per Section 16 (1) of the National Audit Act No. 19 of 2018, the Commission is required to maintain proper books and records of all its income, expenditure, assets and liabilities, to enable annual and periodic financial statements to be prepared.

The Accounting Officer shall ensure that an effective internal control system is maintained for the financial control of the Commission in terms of Sub-section 38 (1) (c) of the National Audit Act and it should be periodically reviewed the effectiveness of the system and make any necessary changes to keep the system running efficiently.

1.4 The responsibility of the Auditor on the auditing of the Financial Statement.

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors'report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Sri Lanka Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Sri Lanka Auditing Standards, I exercise professional judgment and maintain professional skepticism throughout the audit. I also furthermore;

- Appropriate audit procedures were designed and implemented to identify and
 assess the risk of possibility of quantitative misrepresentations occurred in financial
 statements due to fraud or errors in providing a basis for the expressed audit
 opinion. More than the impact of quantitative misrepresentations due to
 misrepresentation, the effect of fraud is strong because of malpractice, forgery,
 intentional evasion, misrepresentation, or evasion of internal controls can lead to
 fraud.
- Although it is not intended to express an opinion on the effectiveness of internal control of the Commission, obtained an understanding of internal control in order to plan appropriate audit procedures occasionally.
- Evaluated the appropriateness of the accounting policies followed, fairness of accounting estimates, and related disclosures made by Management.
- Evaluated whether the transactions and events underlying the structure and content
 of the financial statements are appropriately and fairly consistent in and presentation
 of financial statements including disclosures as a whole.

The Accounting Officer was made aware of important audit findings, key internal control deficiencies and other matters identified in my audit.

1.5 Report on other legal requirements.

I declare the following matters as per section 6 (i) (c) of the National Audit Act No. 19 of 2018.

- (a) The financial statements are corresponding with the previous year.
- (b) My recommendation with regard to the financial statement for the previous had been implemented.

2. Financial Review

2.1. Expenditure Management

- (a) Even though it is the responsibility of the Chief Accounting Officer to prepare annual estimates as accurately as possible in accordance with Finance Regulation 50(1), a provision of Rs. 50,000 /-has been allocated to the Object of Foreign Traveling Expenses despite the control mandated by National Budget Circular 03/2022 issued dated 26th April 2022,was completely transferred to another Object.
- (b) Even though the annual estimates should be prepared as fully and accurately as possible in accordance with Finance Regulation 50(1), it was observed that provisions ranging from Rs. 583,800 to Rs. 2,242,749 for four Objects, with a total estimate value of Rs. 17,185,000, had savings ranging from 27% to 99% due to not preparing estimates according to a specified plan.
- (c) An allocation amounting to Rs. 8,300,000, which is 11% of the total allocations of the National Education Commission, has been reserved for Research & Development Expenditures for Educational Reforms, which is the primary objective of establishing the National Education Commission in terms of the National Education Commission Act No. 19 of 1991. However, Rs. 2,242,749 of the allocated amount remained unspent at the end of the year.

2.2 Certifications to be made by the Chief Accounting Officer

Even though the Chief Accounting Officer should ensure that there is an effective mechanism for the proper functioning of the internal audit function, this requirement has not been met .

2.3 Non-compliance with Laws, Rules, Regulations

The following observations are made

Reference to the Laws, Rules and Regulations Non-compliance

- (a) Section 3:1 of Public Administration Circular No. 30/2016 dated 29 December 2016.
- Even though there are 02 pool vehicles belonged to the commission, a fuel test has been done for only one vehicle.
- (b) Public Administration Circular No. 09/2009 and 09/2009 (I) of the Secretary to the Ministry of Public Administration and Home Affiars

Even though all public officers inclusive of the institutional heads to use finger scanners to mark the arrival and departure, some officers of the top management level attached to the National Education Commission had not adhered to the said.

3. Operational Review 3.1.1 Planning

The facts such as: the updated organization structure of the institution, the approved cadre and the actual cadre, imprest plan and the internal audit plan that should be included in preparing an action plan as per the provisions laid down in Para 03 of the Public Finance

Circular No.02/2020 dated 28th August,2020 has not been included to the Action Plan prepared for the year 2023.

3.1.2 Non Execution of Functions

The below mentioned facts were observed when evaluated the performance at the end of the year as per the Action Plan of the National Education Commission.

- (a) Even though it was planned to amend the National Education Commission Act, which was more than 30 years old, and present it to the parliament for approval as part of the education reforms suitable for the 21st century, the said activity was not completed even by the end of the year. This was because the line ministry was not informed about the future measures, despite the recommended amendments being submitted to the Minister on 5th October, 2022.
- (b) Final reports of only 5 activities out of the 7 activities included in the Action Plan and scheduled to be completed in the year 2023 have been referred to the printing as at 31st December, 2023.
- (c) In addition to the said, final reports of only 7 activities out of the 10 activities included in the Action Plan and scheduled to be completed in the year 2023 have been referred to the printing as at 31st December, 2023.
- (d) A sum of Rs. 1,320,000 was allocated in 2023 to prepare and publish the Statistical Digest on Education on an annual basis. However, the Statistical Digest was submitted only for printing despite Rs. 179,247 of the allocated amount being spent.
- (e) Only the draft report of the mid-term review for four sustainable development goals was submitted to the Ministry, despite the cost incurred as of 31st December 2023, being Rs. 3,883,457/--
- (f) The amendment of the recruitment procedure and the preparation and development of the standard operating procedures, which were part of the action plan since 2022, were temporarily suspended due to a proposal to abolish the National Education Commission and reestablish it under an educational committee within the line ministry

3.2 Asset Management

The following observations are made

- (a) A refrigerator valued at Rs. 309,990, purchased in 2018 and included under Property, Plant & Equipment in the statement of financial position, was sent to a private institution for repair in 2021, and no measures were taken to retrieve it. As a result, the existence of this asset could not be confirmed during the audit.
- (b) According to the Board of Survey of the National Education Commission as of December 31, 2023, it was identified that three cassette recorders were missing in 2022 and two digital voice recorders were missing in 2023. However, no action was taken in accordance with financial regulations to update the departmental documents.
- (c) No action was taken yet in terms of the F.R772 with regard to the laptop recognized unusable by the Board of Survey Report 2022.

4. Human Resource Management

Level	Approved Cadre	Actual Cadre	Vacant
Senior	12	10	02
Tertiary	11	05	06
Secondary	10	07	03
Primary	12	09	03
Total	45	31	14

The following observation are made

- (a) There are 14 vacancies in the current cadre of the National Education Commission. However, filling these vacant positions has been temporarily suspended due to a proposal to abolish the National Education Commission and reestablish it under an educational committee within the line ministry.
- (b) The post of Accountant, which was in the approved cadre of the Commission, was vacated on 26th August, 2020. Instead of filling the vacancy, acting officers were appointed until November 2023, a period of more than a year. The Commission informed the auditors that this delay was due to the proposal to abolish the National Education Commission and reestablish it under an educational committee within the line ministry, which led to temporarily suspending the filling of vacancies.

5. Good Governance

5.1 Internal Audit

Audit and Management Committees

Even though the commission should conduct 04 Audit and Management Committee meetings in accordance with Section 41 of the National Audit Act No. 19 of 2018 in the year under review, only 02 meeting were held.

5.2 Identification of Sustainable Development Goals

The details regarding the Sustainable Development Goals applicable to the Commission, as per the United Nations 2030 Agenda for Sustainable Development, were not submitted for auditing. However, the Commission informed to the auditing that its scope is to draft educational policies and plans, while the institutions responsible for implementing these policies and plans should prepare the corresponding targets and goals

Sgd. Illegibly

N.D.N.C.Kumari Senior Assistant Auditor General For Auditor General

Copy: Director General, Department of State Accounts

The Annual Detailed Management Audit Report in terms of Section 11(1) of the National Act No. 19 of 2018, regarding the Financial Statements of the National Education Commission for the year ended on 31st December 2023

Head 335

No.	Audit Observation	Answer
2	Financial Review	
2.1	Expenditure Management	Not agreed
	(a)	The annual estimates were properly prepared and since the foreign travels should be controlled as per the instructions of the treasury by the Circular No.03/2022, actions have been taken to approve only an allocation of Rs.50,000.00 under this object. Since the failure to request allocations would prompt the treasury to remove the relevant Object, it would make it impossible to cover the costs of foreign travels for an officer for urgent duties.
	(b)	Even though the annual estimates were accurately prepared in terms of the Financial Regulations 50(1), the reasons for the certain savings of the each Objects are
		I. As it was suggested to abolish the National Education Commission and reestablish it under an educational committee within the line ministry as part of the Educational Reforms in the latter part of the second quarter of 2022, the expenditure for Object 2102 Furniture & Office Equipment was suspended.
		II. In the year 2022, procurement activities were underway to create a new website for the institution. However, in accordance with the state's expenditure control circular, it was decided to upgrade and maintain the current website of the institute to meet the requirements, rather than developing a new one. As a result, a certain amount of the allocations under Object 2106-Software Development remained unspent.
		III. Due to the resignation and migration of a few officers of the Academic Staff for academic purposes, the allocations estimated for those officers under Object 1003 remained unspent.
		IV. The completed research papers were submitted for printing as of 31st December, 2023. Due to delays in those institutions, the payments under Object 2507 for the said papers were carried forward to the next year

	(c)	The completed research papers were submitted for printing
	(C)	as of 31st December, 2023. Due to delays in those
		institutions, the payments under Object 2507 for the said
		papers were carried forward to the next year
2.2	Certifications to be made by	papers were carried forward to the flext year
2.2	the Accounting Officer	
	The recounting officer	Not agreed.
		Thorugiced.
		This institute does not have an internal audit division and
		the post of the Internal Auditor has not been approved. We
		have requested to execute an internal audit through the
		Internal Audit Division of the Education Ministry.
		However, actions would be measured in year 2024 to
		prepare an internal audit plan.
2.3	Non-compliance with Laws, Ru	les, Regulations
	a)	Agreed
		Tigreed .
		The actions are being taken to do a fuel test in respect of the
		other vehicle which was under the pool vehicles.
	b)	Agreed
	/	1-0-1-1
		Actions are being taken.
3	Operational Review	
3.1.1	Planning	The organization structure of the institution, the approved
	8	cadre and the actual cadre, imprest plan updated with the
		Action Plan of the year 2023 had been prepared. The Action
		Plan for the year 2024 has been prepared in the specified
		format in terms of the Public Finance Circular 02/2020.
3.1.2	Non Execution of Functions	
	(a)	Agreed
		We are not made aware over the future measures by the
		Ministry of Education
	(b) (c)	The final reports of 7 activities out of 10 has been referred
		to the printing before 31.12.2023. Now all reports relevant to
		the said 10 activities have been referred to the relevant
		institutions.
	(d)	Not Agreed
		Having completed the Statistical Digest on Education on an
		annual basis(1st & II Volumes), the relevant final reports
		have been referred to the corresponding divisions.
	<u>(e)</u>	False statements
	157	Table Satellies
		A 98% of the estimated money was expended for this
		purpose, Having properly completed the task, the final
		report has been referred to the Sri Lanka National
		Commission for UNESCO as of 22.08.2023.
	(f)	Agreed
L	\ /	

3.2	Asset Management				
	(a)	Necessary measure are being taken to retrieve the refrigerator back to the institution.			
	(b)	Agreed			
		Necessary measures are being taken to take actions in terms of the Financial Regulations in respect of the missed equipment.			
	(c)	Not Agreed			
		This laptop has been referred to the auction under disposal of condemned vehicles in terms of F.R.772. However, the bids offered were below the minimum price, this was retained in the institution. Actions will be taken at the Board of Survey-2024 in this regard.			
4	Human Resource Management				
	(a) (b)	The institutions have to adhere to the policy decisions of the State.			
5	Good Governance				
5.1	Internal Auditing				
	Audit and Management Committees	Agreed			
5.2	Identification of Sustainable Development Goals	Agreed

National Education Commission.

Chapter 04 - Performance

4.1 - Performance indicator of the organization

Special Indicators	Actual outputs an a percentage of the expected output				
Special fidicators	100%-90%		75%-89%	50%-74%	Below 50%
		Not Applicable			

Chapter 05 - Performance of the achievement of the Sustainable Development Goals

5.1 Objectives of Sustainable Development goals

Assuring an equal and qualify education for all and promoting opportunities for lifelong education.

5.2 Achievement and Challenges of the sustainable Development Goals.

Steps have been taken by the National Education Commission to achieve the relevant Sustainable Development Goals in the process of formulating education Policies. Accordingly, preparation of the report of Education policy framework 2022-2030 was begun in July 2020 and it was planned to include the policy recommendations based on achieving Sustainable Development Goals.

National Education Commission scope is to formulate educational policies and plans, while the institutions responsible for implementing these policies and plans should prepare the corresponding targets and goals in line with the formulated policies.

Chapter 06 - Human resource Profile

6.1 Cadre Management

	Approval Cadre	Actual Cadre	Vacancies/(Excess)
